Jerry Haney, the highly acclaimed author of *Making Culture Pay—Solving the puzzle of organizational effectiveness* is working everyday with organizations all over the country to help leaders build and rebuild organizations that live up to their full potential. Jerry spent over thirty years actually developing and using his unique model for understanding, building and rebuilding high performance organizations.

Once the top executive has made a commitment to cultural renewal, it is time to engage the executive team in the process.

Jerry has developed a one-day Executive Engagement Workshop that is being used very successfully to gain the commitment of the executive team and each of the members individually.

- Learn just how much more successful high performance cultures and subcultures are
- Be introduced to the six critical elements of workplace cultural leadership
- Utilize a personal survey to assess the potential for dramatically improved performance within their current organization
- Discover a proven process for turning any viable organization into a truly outstanding workplace culture
